

Employee / Temporary Associate  
Health Policy

This policy is being issued to every employee and temporary associate and is effective immediately.

Before leaving for vacation, please let us know the state(s) and/or country(ies) you are planning to travel to.

The State of CT has mandated that those traveling for non-company business and returning to CT from any affected states MUST self-quarantine for 14 days upon returning to CT. The list of affected states is continually changing and is updated on the state website <https://portal.ct.gov/Coronavirus/travel>.

Based on the new state mandate a negative COVID test result upon your return does not eliminate the need for a 14 day quarantine period.

If you traveled to one of the affected states, outside the country, have been in contact with someone who has tested positive, or are symptomatic please consult your health care provider and schedule a COVID test at one of the many available test sites in Connecticut. A negative test result is required before returning to work after your quarantine period.

You must keep us informed of the state(s) and/or country(ies) people you have been in contact with have travelled to within the last 14 days.

You are also expected to let us know if you or anyone in your household are experiencing any known virus symptoms (fever of over 100.4, coughing, sneezing, respiratory problems, shortness of breath).

Thank you for your understanding and cooperation to keeping our facility safe. For more information about our policies regarding COVID-19, please contact [lleonard@forummolding.com](mailto:lleonard@forummolding.com).
